Android Java Network Management  
OpenGL Database Maintenance

### Soft Skills

Agile/Scrum Quality Control LEAN Thinking  
Team Building Empathy Public Speaking  
Troubleshooting Qualitative Reasoning

## What I Stand For

**Respect. Responsibility. Self-Integrity.** To improve my life, and the lives of those around me through the work I do, the relationships I build, and the novel solutions I design.

I want a workplace that allows me to improve upon my skills, while fostering an energetic and **positive community** that I can feel proud in belonging to.

*"The best way to predict the future is to create it." ~ Peter Drucker*
